SUMMARY

Computer Science student and AI & Machine Learning Trainee with hands-on experience in Python, Machine Learning, Natural Language Processing, Computer Vision, data preprocessing, model development, and model evaluation. Skilled in TensorFlow, NumPy, Pandas, and Matplotlib. Completed Machine Learning training at Route and currently developing AI and Machine Learning skills through the Digital Egypt Pioneers Initiative. Experienced in applying machine learning workflows to real-world datasets through projects including NLP-based Sentiment Analysis and VeggieVision. Seeking an AI & Data Trainee opportunity to apply technical skills, contribute to data-driven projects, and gain practical industry experience.

EDUCATION

Culture and Science City

Bachelor of Computer Science | September 2023 - August 2027

EXPERIENCE

Digital Egypt Pioneers Initiative (DEPI)

AI Jizah, Egypt

AI & Machine Learning Trainee | July 2026 - Present

- Learning Artificial Intelligence and Machine Learning concepts through practical assignments.
- Developing problem-solving and analytical skills through technical activities and collaborative teamwork.
- Expanding practical knowledge in Natural Language Processing and Computer Vision.

Route

AI Jizah, Egypt

Machine Learning Intern | December 2025 - June 2026

- Developed practical knowledge of Machine Learning and Artificial Intelligence through training and projects.
- Applied Python and data preprocessing techniques to machine learning tasks, focusing on model training, validation, evaluation, and performance analysis.

PROJECTS

Sentiment Analysis using NLP

- Developed an NLP-based sentiment analysis model using Python and DistilBERT.
- Applied text preprocessing and data preparation techniques to a real-world dataset.
- Trained and evaluated the model using validation and performance metrics, achieving 90.91% accuracy and 90.86% F1-score on the test set.

VeggieVision

- Developed a computer vision project for image processing and classification tasks.
- Applied Python and machine learning pipelines to process image data and extract features.
- Implemented model development, training, and evaluation workflows to ensure reliable classification performance.

TRAINING & COURSES

- Digital Egypt Pioneers Initiative - AI & Machine Learning
- Route - Machine Learning Training

TECHNICAL SKILLS

Programming & Libraries: Python, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, PyTorch, Hugging Face Transformers, NLTK, OpenCV, YOLOv8, Matplotlib, Seaborn

Machine Learning: Supervised Learning (Linear Regression, KNN, SVM, Random Forest), Model Evaluation, Hyperparameter Tuning (GridSearchCV), Feature Engineering

Deep Learning & CV: ANN, CNN, RNN/LSTM, Regularization (Dropout, EarlyStopping), Data Augmentation, Object Detection

NLP & Tools: Sentiment Analysis Pipelines, Model Serialization (joblib), Streamlit

SOFT SKILLS

Problem Solving | Analytical Thinking | Communication | Teamwork | Collaboration | Adaptability | Continuous Learning

LANGUAGES

Arabic: Native | English: B2
